Mayor Archibald: There should be a communication here from the Chamber of Commerce asking us to appropriate the sum of \$5,000 toward the exercises of the breaking of ground for the new tunnel. I have conferred with Corporation Counsel and he advises we have no legal right to make an appropriation of this kind.

The following communication was received and read:

Chamber of Commerce of the
City of Newark, New Jersey.

July 7, 1921.

Hon. Alexander Archibald,
Mayor of the City of
Newark, N. J.,

Dear Mr. Mayor:

It is proposed to break ground for the New Jersey end of the Vehicular Tunnel on Saturday, August 6th, and to have a celebration in connection therewith to be participated in by the municipalities of northern New Jersey.

The Chamber of Commerce of Newark has been appealed to in an effort to raise a sufficient sum of money to

defray the expenses of a celebration, which are estimated at \$5,000. It has been suggested that Newark's pro rata share of this amount should be \$1,000. This sum to be appropriated, if possible and proper, by the municipal authorities.

The proposed celebration to commemorate the event comprehends a parade of organizations from the several municipalities, fireworks, bands, etc., etc.

I am advised that the Tunnel Commission has no funds available to defray the expense of such a celebration. May I suggest that the City Counsel be requested to furnish an opinion as to the legality of such an appropriation being made by the Board of City Commissioners, and if legal, that the City Commission give consideration to the proposal for an appropriation of \$1,000 for the purpose outlined in the foregoing.

If your Honorable Body desires to make an appropriation the same should be forwarded to Mr. Mahnkin, President of the Bayonne Chamber of Commerce, who is also Treasurer of the Ground Breaking Celebration Committee. Any checks sent to him will be acknowledged in due course of time.

Thanking you for your kindly consideration of this matter, I am,

Yours very truly

E. W. WOLLMUTH,

Secretary.

A regular meeting of the Board of Commissioners of the City of Newark, N. J., was held on the above date, in the Council Chamber, City Hall, Newark, at 11 A. M.

The following communication was received and read:

Burnrite Coal Briquette Co.
Newark, New Jersey.

July 14, 1921.

To the Honorable Mayor and
Commissioners of the City of Newark

Gentlemen:—

We take this opportunity of officially bringing to your attention the fact that we are engaged in the business of briquetting Anthracite Coal which can be used to a material advantage wherever Anthracite Prepared sizes are now used, and in support of the presentation we are attaching to this communication evidence of the qualification claimed for our product.

Our object in forwarding this communication and the evidence attached thereto is for the purpose of having you acquainted with this fuel to the extent of including in your advertisements such wording or phraseology which will enable the coal dealers of Newark to submit bids for Burnrite Briquettes at such times as these advertisements appear or the City is buying Anthracite fuel for its various departments.

Another feature to be considered, especially from the fact that there is usually a shortage of coal during the coal weather period is that our supply of fine coal is all stored during the summer months on our property in Newark, thereby eliminating the question of delays by snow storms and shortage at the mines. In other words, we are in a position to furnish briquettes at all times during the winter season.

Board has no authority to make contributions for any such purpose.

The roll being called, the motion was declared adopted by the following votes:

NEWARK, N. J.

July 19, 1921.

A regular meeting of the Board of Commissioners of the City of Newark, N. J., was held on the above date, in the Council Chamber, City Hall, Newark, at 11 A. M.

Present:—Commissioners Breidenbach, Brennan, Gillen, Raymond, Mayor Archibald.

The minutes of the meeting of July 12th, 1921 were read and approved.

The following communication was received and read:

Burnrite Coal Briquette Co.
Newark, New Jersey.

July 14, 1921.

To the Honorable Mayor and
Commissioners of the City of Newark

Gentlemen:—

We take this opportunity of officially bringing to your attention the fact that we are engaged in the business of briquetting Anthracite Coal which can be used to a material advantage wherever Anthracite Prepared sizes are now used, and in support of the presentation we are attaching to this communication evidence of the qualification claimed for our product.

Our object in forwarding this communication and the evidence attached thereto is for the purpose of having you acquainted with this fuel to the extent of including in your advertisements such wording or phraseology which will enable the coal dealers of Newark to submit bids for Burnrite Briquettes at such times as these advertisements appear or the City is buying Anthracite fuel for its various departments.

Another feature to be considered, especially from the fact that there is usually a shortage of coal during the coal weather period is that our supply of fine coal is all stored during the summer months on our property in Newark, thereby eliminating the question of delays by snow storms and shortage at the mines. In other words, we are in a position to furnish briquettes at all times during the winter season.

In briquetting the fine anthracite coal into a uniform burnable size, we create a more scientific combustion condition and together with the fact that our coal contains more carbon per ton than the prepared coal, you can readily appreciate the additional heat value which is obtained from these briquettes. In addition to this, there are no clinkers nor cinders in the ash, which means a material saving on your equipment from wear and tear.

Burnrite Coal Briquettes are selling today at \$1.30 per ton less than stove and nut coal in the Newark market, and if all these facts are taken into consideration, there will be a very material saving to the city if you so desire.

We are presenting the above to you as a Newark institution and ask that the above request be granted in behalf of the large number of Newark Coal Dealers who are stockholders and dealers in this product.

We would thank you to present this matter at your next meeting and if it is the desire of the Commission to have any further information, we shall be very glad to appear in person and answer all questions or give you any further data you may desire.

Awaiting your reply, we are,

Very truly yours,

BURNRITE COAL BRIQUETTE CO.

F. M. Yorston,
Secretary.

one specific issue without committing ourselves to the balance. It is understood that all the bonds under option will be issued in coupon form of \$1000 each, with the privilege of registration as to principal only, or both principal and interest, and will be payable in gold coin of the United States of the present standard of weight and fineness at the National State Bank of the City of Newark."

You will notice that West Side Trust Company and J. S. Rippel & Company bids on the Fire House Bonds and Fire Apparatus Bonds were higher than the bids of Federal Trust Company and Ironbound Trust Company for the same issues, but the bids of West Side Trust Company and Rippel were both conditioned upon all of the issues being awarded to them.

You will therefore observe that the bids of Federal Trust Company of Newark and Ironbound Trust Company of Newark are the best bids and are the same. I have accordingly awarded half of each issue to the Federal Trust Company and Ironbound Trust Company, respectively.

Respectfully,

F. C. BREIDENBACH,

Director of the Department of Revenue and Finance

An ordinance providing for the regulation and control of vehicular traffic and the parking of vehicles in certain streets of the City of Newark and providing penalties for the violation thereof.

Mayor Archibald:—Is there any citizen desiring to be heard on this ordinance?

Commissioner Raymond:—I understand the Courts have said that any parking of vehicles in the public highways is illegal and if this is so, I feel it would be unlawful for me to vote for an ordinance which permits parking, and I am compelled to vote against it. In addition to this, we have a parking ordinance relating to part of the territory covered by this ordinance which I do not think has been sufficiently tried, and I am opposed to such a sweeping ordinance as this. I do not think it is a benefit to the City to remove traffic from the main streets.

Commissioner Brennan:—I am of the opinion that something will have to be done to facilitate the flow of traffic through the City. With the ordinance we now have it is impossible to get relief. Practically all representatives of the City have worked on this ordinance and it has practically been altered to meet their suggestions. Committees representing the dry goods trade, Chamber of Commerce, Traffic Club, Rotary Club, Market Street Improvement Association and the Broad and Market Merchants are in favor of it. The ordinance as presented is practically in line with the suggestions of this Committee after various discussions, and I believe more thought has been given to this ordinance than any other.

Commissioner Raymond:—If any parking is unlawful, how can you provide for parking? If such use of public streets is unlawful, I cannot vote to do it without making me a party to an illegal act.

Commissioner Brennan:—We are trying to regulate conditions with an eye to the interests of business and the public without making to too drastic.

Commissioner Brennan moved that the ordinance be taken for its second reading.

The roll being called, the motion was declared adopted by the following votes:

Yea:—Commissioners Breidenbach, Brennan, Gillen, Mayor Archibald.

The Temporary Improvement Bonds authorized by this ordinance are authorized in addition to and not in substitution for the Temporary Improvement Bonds authorized by an ordinance entitled "An Ordinance authorizing the issuance of not exceeding \$2,362,864.65 of Temporary Improvement Bonds of the City

William P. Hurley
Counsellor-at-Law
Firemen's Building

Newark, N. J., July 25, 1921

To the Board of Commissioners
of The City of Newark.

Gentlemen:—

Some time ago you advertised for confirmation by your board the report of the Commissioners of Assessment on the proposed assessment for the paving of Doremus Avenue.

Myself and several of the property owners appeared at the time, but the matter was laid over, apparently without hearing.

I do not know the present status of the matter, but desire to be advised when the matter again comes before your Board, as many of the property owners as well as myself desire to be heard in the matter before the report is confirmed, and the other property owners are depending upon me to advise them of the status of the matter.

I represent the Butterworth-Judson Corporation, George A. MacIntosh, The Sun Company and some of the other property owners, and some of the others desire to appear in person or by a representative.

I would therefore request that if the matter is not again advertised for hearing that I be advised of the date of hearing.

Yours very respectfully,

WILLIAM P. HURLEY.
